SABDS (Situational Awareness Bridge Display System) built in the Prism Production Lab

Prism Maritime has many experienced engineers, field engineers and technicians with diversified experience in Naval Shipboard C5ISR Systems. We perform ship checks to update SIDs and ICDs; we troubleshoot, repair, and support design prototypes for numerous Navy customers and specialize in legacy and modern system integration. Prism has a 25,000 SF Fabrication facility to fabricate Heavy and Light Structures, Piping Assemblies, Wave Guide systems, Electrical and Fiber Optic cable and connectors, building various complex consoles, cabinets, and racks.
